August 27, 2024

TO: Embassy or Consulate

RE: Di Wu
Email: Ediosn.Wu@outlook.com
Address: 37 Xueyuan Road, Haidian District, Beijing, P.R. China, 100191. , Beijing China 100191

The Association for Computing Machinery (ACM) is a non-profit international scientific and educational organization dedicated to advancing the art, science, engineering, and application of information technology, serving both professional and public interests by fostering the open interchange of information and by promoting the highest professional and ethical standards. ACM will be sponsoring ASE '24: 39th IEEE/ACM International Conference on Automated Software Engineering | Sacramento CA USA | from October 27, 2024 to November 1, 2024. Attendance is open to all those interested in the subject matter.

Di Wu is an author of a paper accepted for presentation at this conference entitled, CEDAR: Assembling LLMs with Expert Toolsets for Code Smell Detection and Refactoring. Authors are expected to attend the conference to present their research and answer questions about it.

The importance of computing to the future is unquestioned, and the critical role of the computing professional is constantly changing. ACM's broad array of life-long learning and skill development opportunities include tutorials, workshops, conferences, online books, online courses, and the ACM Digital Library. This extensive range of options and opportunities make it possible for computing professionals to keep abreast of technology and maintain a competitive advantage.

The Association for Computing Machinery (ACM) is the world's leading educational and scientific computing society and the resource for lifelong learning in the rapidly changing field.

Sincerely,
Donna Cappo
